

VITLAB® Promotional

ADVERTISE WITH YOUR GOOD NAME

VITLAB 

Your good name in daily use

Precision is usually of great significance when it comes to ensuring the effective use of granulates, powders or liquids. The transportation, storage and decanting of small volumes often require special containers. VITLAB® is one of the leading manufacturers of high-grade plastic labware and specializes in high-precision printing on plastic products with superior chemical and break resistance.

This offers a great advantage: by having your name and logo printed on these products, you will work “hand in hand” with your clients and always maintain a high presence. The products can be used wherever people work with granulates, powders or liquids; for example, in agriculture, laboratories, the medical sector, the food industry and the cleaning

business, as well as when using colours and chemicals.

Plastic labware by VITLAB® guarantees that you have the best manufacturing quality and optimal functionality associated with your good name, thus ensuring a sustained positive echo.

A positive echo through individuality

VITLAB® develops and manufactures its products at its own production facilities. This allows us to produce and print plastic labware according to your individual requirements and specifications. Please do not hesitate to inform us of your wishes and we will let you know what sort of individual solution we can provide for you.

When it comes to precision and accuracy

Volumetric containers by VITLAB® stand out due to the greater precision and accuracy ensured by the measuring scale. On request, VITLAB® can also print a customized scale on your product. The quality colours guarantee that the scale remains readable and does not wear off.

Small gifts keep the friendship alive

Plastic products have a high level of usability and are ideally suited as advertising articles or for promotional campaigns for your products. You can have your company name and logo or other motifs printed on them permanently and thus advertise with your good name.

A unique position thanks to an unmistakable design

VITLAB® provides advertising materials of the very highest quality with round, conical or flat printing, using screen or pad printing systems and with particularly durable and luminescent colours according to the Pantone and HKS colour table. Various marking techniques, such as laser printing and heat embossing, provide you with an unmistakable design.
